In practical syllabi of I semester, 'Introduction to R' is included as 1st practical, earlier practicals namely, Exercises on graphical presentation of data and Analysis of data through stem and leaf chart and boxplot are combined and renamed as Exercise on graphical presentation of data. It was decided to discuss the construction of frequency polygon and curves in the theory class.
Action taken:

The above suggestions were implemented in I semester practicals.

Suggestion 2:

Deleted 3rd practical namely, construction of univariate and bivariate frequency distribution.

Action taken:

The above topic was excluded as it is too basic.

Suggestion 3:

In unit I of II semester deleted trivariate regression and multiple regression plane for 3 variables, properties of residuals, Partial regression, Variance and Standard error of residuals - properties since these topics are included in III unit of elective paper 'Applied regression Analysis.' Also instead of Bivariate regression, included scatter diagram, Simple linear regression model.
